Project Proposal

Dear Customer,

We are pleased to submit this proposal for the development of a pricing tool. The project involves creating a calculated cost estimation system, and we have allocated 100 hours of mid-level development time to complete this task.

The scope of the project includes designing and developing the pricing tool, with the following key features:

- Calculated cost estimation based on project requirements
- Mid-level development expertise for 100 hours

The project timeline will be determined based on the complexity of the requirements and the availability of our development team. We will ensure that the project is completed within the allocated timeframe and budget.

Commercials

Total Estimated Cost: ₹25,000

Please note that the total estimated cost is based on 100 hours of mid-level development time, and the standard terms and conditions of our company apply to this project.
